Dave:

- Noticed some strange things; crosswalks—stop when pedestrians are crossing; tagging a pedestrian is not good; pedestrians don't care! Multi-lane highways...don't make assumptions; always be ready for the changes in traffic; moving up in a column---if a gap in a group ride, is it significant enough to move up...the gap closes by itself at a stop sign or a light—more turns=more gaps; ride to your ability and have fun.
